

This is Teddy.

One day Teddy's parent took him to see the Hoover Dam.

When he was playing he got very close to the edge. He was not being safe.

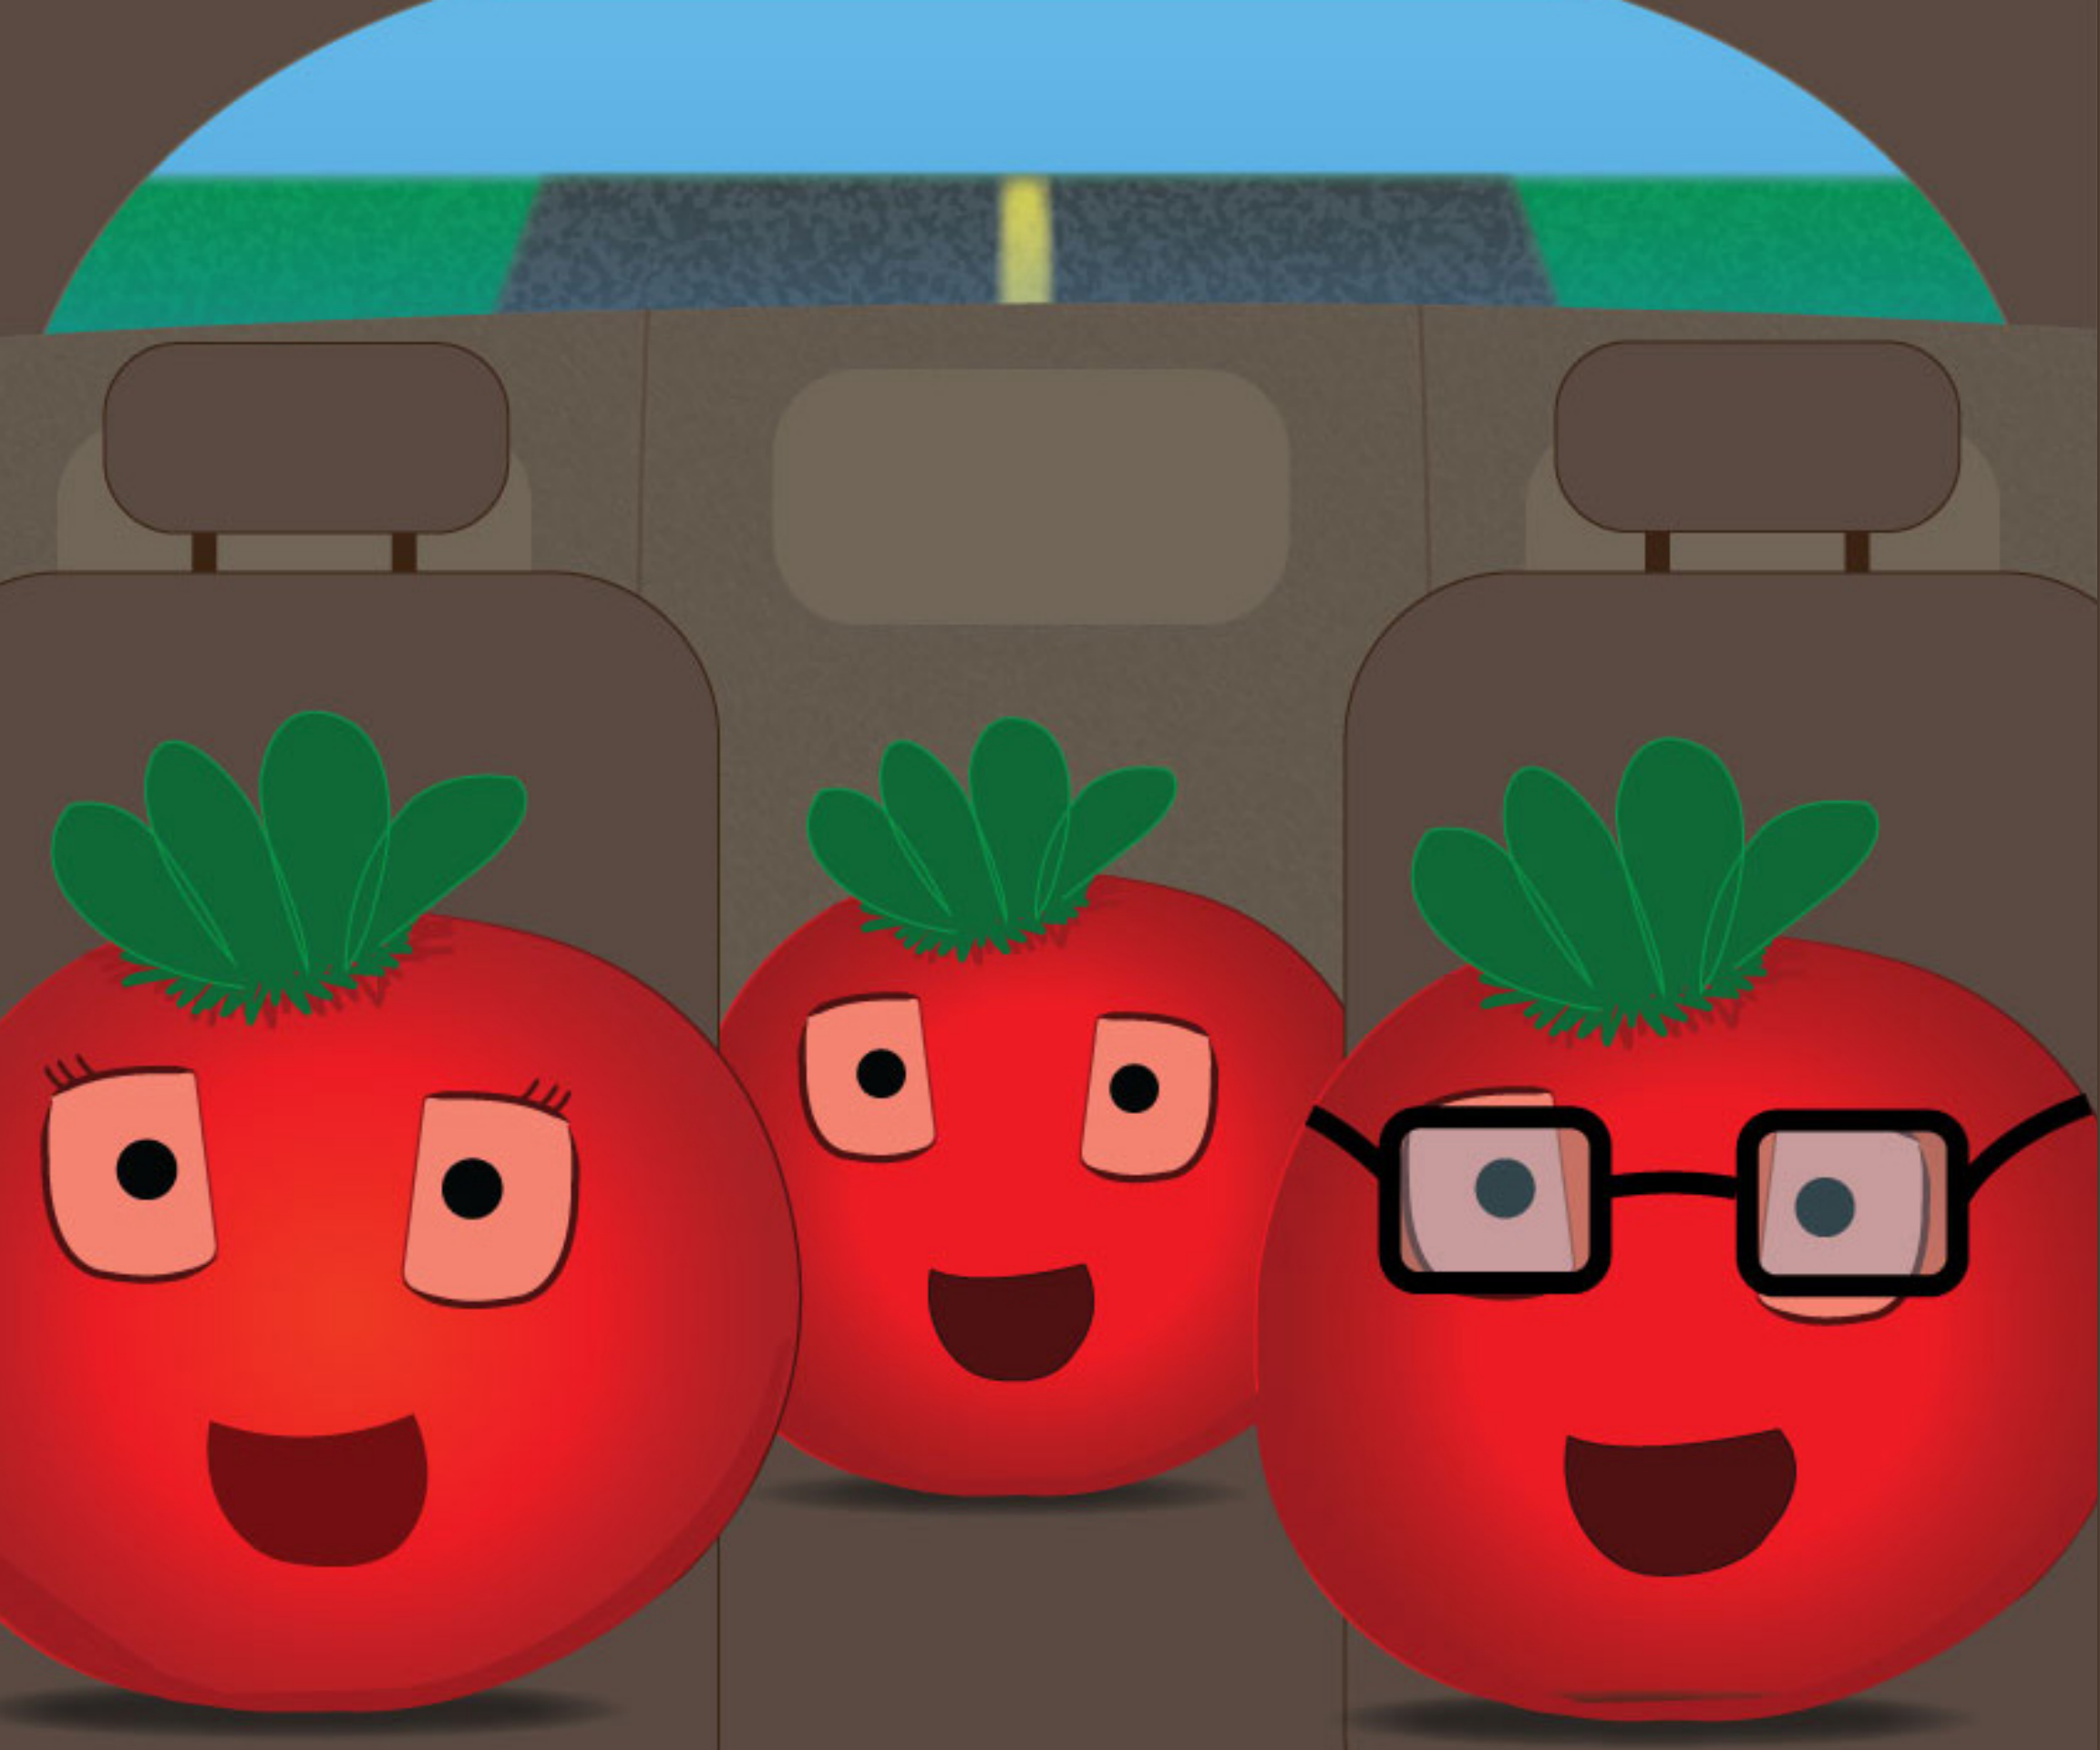

When they drove home, Teddy's parents explained how important it is to be careful, and aware of his surroundings.

The next day Teddy went to his best friend's birthday party.

He got scared in the bouncy house he wanted to be safe, but there were kids jumping everywhere!

Teddy's parents asked him why he hadn't been playing with his friends at the party. He told them that he was trying very hard to be safe.

They explained how it is okay to have fun and be carefree when you know that you are in a safe environment.

Now Teddy knows when to be careful and when to be carefree!
