What IS Fashion Illustration?

Fashion Illustration is the art of communicating fashion ideas in a visual form that originates with illustration, drawing and painting and also known as Fashion sketching.

Why Fashion Illustration?

Interest in Fashion

I have an interest in fashion design and illustration. Maybe as a potential career in the future? Not sure yet...

Otis Summer of Art

Last summer I got the opportunity to take classes at Otis College of Art and Design, one of the best schools for fashion design. I learned about fashion design, illustration, construction and figure drawing.

My Fashion Illustrations

- Wasn't 100% planning on doing my own.
- Too many sketches and not enough time to sort and make a cohesive full collection.

Conclusion

The future

I had a lot of fun working with fashion illustration. And maybe, MAYBE I will continue with it in the future. I planned on majoring in fashion illustration but I am having a lot of trouble because I was so sure that this is what I wanted to study for a long time but now that the time is approaching I'm not so sure....

Reflection

Either way, this project was a lot of fun and I really enjoyed being able to put my time and energy into something that I am really interested in. Even though I am not sure whether I will pursue this in the future, I really appreciated the time that I was given to explore and think about how much I like this subject.

The End!

Thank you for listening!
